

Healthy Hoof Clinic

With James & Yvonne Welz

Learn all about healthy hooves! For every horse owner and hoof care provider!

James & Yvonne from Litchfield Park, Arizona will share what they've learned over this past decade. They teach a generic natural trim for ordinary hooves, with an emphasis on keeping horses sound. This unique clinic is compatible with ALL styles and methods of hoofcare (barefoot or shod), and will provide information for both the novice and the experienced alike.

Who are James & Yvonne Welz?

James Welz was one of the pioneers in applied barefoot hoofcare, graduating from the first year-long European School for Hoof Orthopedics course offered to North American students in 2000-2001. He has trimmed for a full time clientele of barefoot performance horses for over 8 years. He blends his theoretical educational background into practical application in the field, utilizing many elements of the wild horse model.

James' wife **Yvonne Welz** is the publisher/editor of The Horse's Hoof Barefoot Hoofcare magazine, operates the barefoot website TheHorsesHoof.com, and was co-founder of the "naturalhorsetrim" yahoo group, the most popular barefoot chat group on the internet.
